

Summer Academic Program

Dear Crusader Parents and Students,

I know all are ready to enjoy a summer break. Breaks are important to renew and get ready for the next school year that begins in August.

Beware of the "Summer Slide." The summer slide is when students forget what was learned and fall behind in their academic progress.

The Solution: The solution to the summer slide is spending just a few minutes each day active in reading and math. Just like when we brush our teeth each day, even in the summer, we can brush up on reading and math to keep our minds fresh and clean.

Today we have the tools to keep our learning fresh all summer long. Below are the links to the tools that will make students successful.

Make sure to actively perform reading or math skills for about 20 minutes a day. Alternate between the two. One day do reading, the next do math. The goal is to spend about 100 minutes a week reading and solving math problems. Parents and students can get creative with schedules to make it work for them. Or, students can spend extra time to get ahead.

I-Ready: (Reading and Math) <https://login.i-ready.com/>

Accelerated Reader: (Reading only)

<https://global-zone20.renaissance-go.com/welcomeportal/207360>

Don't forget! Our AOL school library will open once a week for students to get more books.

Freckle: (Reading and Math) <https://student.freckle.com>

MobyMax: (Reading and Math) <https://mobymax.com/signin>

Don't miss out on all the fun. AOL teachers can measure their progress using the tools above. Students that meet their goal for minimum minutes and/or A. R. (Accelerated Reader) goals will receive fun rewards. Pizza parties, popcorn, free dress, and much more.

If you need help with any of the above opportunities, do not hesitate to contact the office by phone or email.
